LINCOLN ERECT

The following returns of votes, for Representative to Congress from Lincoln Congressional District, were received as our paper was going to press lest evening. The subjoined list of towns not heard from, with their votes in September last, makes it apparent that Robinson one of the Whig candidates is elected, notwithstending the large vote for Purley, another Whig candirate, and in spite of the tremendous efforts of the Torses. A letter from Wiscasset says. "never were greater exertions ande for any man than have been made for Mr. McCrate in this, vicinity. Money has been free as water "

this base attempt on the part of the form. free press, to make the late duel under the sacreligious appelation of the "Martyrdom of Cilley;" subservient to their vile party purposes, has come at last to this " lame and impotent Mi Line Mr Grundy Mr Smith, of Con , and eonelpsion "

ing Lessons, but a Teacher, a new edition of which, I of goods before purchasing else where. at 36. revised and corrected, we have just published. It street. is believed that the book is one which has been very much wanted in our common schools, and indeed it was compiled at the request of many of our best Teachers. The compiler is a gentleman of known abdities, and long experience in his procsaion. The pieces in this book, are chiefly see. lected from popular works designed for youth, and it is believed, will have a healthy moral influence in those schools in which it is adopted. The book comes at a very low price and has been adopted in a great many Schools with decided approbation, and having been stereotyped, is free from the danger of having any alterations made in it, which is the greatest trouble with all school books.

Those connected with schools, or interested in any manner, are requested to call and examine it. SMITH & EENNO. 17 West Market Square.

DITED BY "BOZ," with illustrations by Cruikshank. "Never has a periodical more carneyly fulfilled its promises then this kilarious magazine. It undertook to be comical, and it is connical almost to a fault. The humor of Box is humor per se i there is nothing like it; nothing to good in his ways and it would appear that the springs from which it is drawn are inexhaustible.

[London Atlas] The extraordinary *frere of popularity this Country Periodical is said to have experienced in England under the editorial management of Charles theken-Esq. has led the subscriber to believe that an Amer. ican edition of a work of such high repute for wi and talent would, in addition to the Reprints of sued by him, be acceptable : he therefore, respectfully takes leave to announce to the public log de termination to commence of American series (lac simile of the original) of Bentley's Miscellany, with the January numbes of the present year, 1838 and which he may expect to have ready during the month of February.

Many editors of journals of acknowledged tasts have extracted copiously from the numbers of the Mixcellany as they have appeared. and the Pick wick Papers, emanating from the pen of the talented editor, is now in course of profitable republication in this country. The character of the Work, thereforg, from these circumstances, it may be presumed is so far favorably hnown as partially to have to ceived the stamp of public approbation, which ear courages the proprietor to hope that in heing the mere humble instrument of presenting the first complate reprint of Bruti Ey's Mischillant to the literation the United States he has not mistaken the public taste; and if his inference in this respect he correct, he may, with confidence, look forward to the result.
